## Gas Flare At Robertson Well; Still Drilling At Bailey-Olds

Drilling and coring has been continuing at the Bailey-Olds No. 1 well 13 miles east of Didsbury this past week, but no further information as to production is available. At the Superior Robertson well south west of town, which was completed about ten days ago, testing is underway and visitors to the well site can see the gas flare burning steadily. Storage tanks have been installed, and acid trucks were out last week end, but no definite information is available. The weekly report of the Western Canada Petroleum Association has the following to say regarding the two wells:

"Canadian Superior Oils of California Limited started gun-perforating this week at the Robertson No. 2-26 wildcat in the West Didsbury area. Perforating and testing, extending probably into July, will determine whether or not the well is a gas or oil well. The well is located on a discovery in Madison limestone and Lower Cretaceous sands.

"On drillstem tests made in recent weeks during drilling of the Didsbury well, the Madison limestone gave fairly substantial natural gas flows with slight oil showings, while the Cretaceous sands above gave some gas and slight oil showings. The well went on to final depth of 10,533 feet, deep into the Devonian formation, without finding encouragement in this section. The hole has been plugged back to 8,430 feet, and 7" casing has been run and set at 8,275 feet with 400 sacks of cement. First gun-perforating and testing is being done in the Madison section, a short distance above base of the casing."

**BAILEY-OLDS No. 1**  
Says the Association report: "Twenty miles east of the Canadian Superior Robertson venture, the Bailey-Olds No. 1 well at Neapolis, 13 miles east of Didsbury, is now down to 9,220 feet, testing deep in the Devonian. This well recorded a discovery in D2 zone of Devonian (depth 8,090-8,124 feet) a month ago, getting a heavy flow of natural gas, a substantial showing of light crude oil, and a high formation pressure of 3,400 pounds per square inch.

"Three of the participants in the Bailey well—Anglo Canadian Oil Company, Calmont Oils Limited and Hudson's Bay Oil & Gas Company—assumed responsibility for deepening of the well to 10,000 feet, and are continuing the well for an undetermined distance to secure information and determine possibilities in formations underlying the D2 and D3 Devonian sections. Should discovery be made below 9,000 feet, the three backers will share it: Calmont 50%; Anglo and Calmont 25% each."

Les LeGrand and Tay Fox returned Sunday from Montreale Lake in northern Saskatchewan. They report a good time and plenty of big fish.

## Regular Meeting Of Knox Church W.M.S.

Knox United W.M.S. held its regular meeting on June 18 at the manse, with a full attendance of members and visitors.

The theme of the worship service was "Work and Worship," taken by Mrs. Bruce Parker. Mrs. M. Maylon of Oids, president of the Red Deer Presbyterian, was the guest speaker and gave a most interesting and informative address on the "W.M.S. Dominion Board."

Mrs. N. Clarke, on behalf of the group thanked Mrs. Maylon for her splendid address.

The meeting closed with prayers for the Christian youth in Canada and Europe and for missionaries in Japan who are taking part in Work Camps.

During the social hour lunch was served. Mrs. E. Kercher and Mrs. R. McArthur assisting the hostess.

## Colored Giants To Play Millionaires

Last June the "Colored Giants" and "The Millionaires" put on a great show at the ball diamond, and by popular request a repeat performance will be staged again this Wednesday, June 27th, starting at 6:30 p.m.

The players, members of the Didsbury Lions Club and the Didsbury Branch of the Canadian Legion, will be suitably dressed for the occasion, and the game promises to be barrels of fun for both players and spectators.

You won't want to miss this local talent game, so be on hand promptly at 6:30.

Proceeds will be devoted to the new hall diamond to be built on the community centre grounds.

## GORE STUDENTS WIN MORE PRIZES IN DOMINION CONTEST

Mrs. Booker, teacher of the Gore school, east of Didsbury, has just received word that the following honors have been won by Gore students by the Dominion Board of the W.C.T.U. of Canada, for essays and health books submitted:

Grade 7 to 9 essay: second prize to June Sherick and Norman Archer.

Grade 5 and 6 essay: second prize to Robert Bittner.

Grades 5 and 6 health book class work: third prize, work being done by Kenneth Stiles and Robert Bittner.

Grades 3 and 4, health book: first prize, work being done by Ernie Wagner, Barbara Devolin, Geraldine Madoche and Geraldine Devolin.

**N. R. Crump Gets Honorary Degrees**

Mrs. L. Hunter and Mrs. E. A. Atkinson served a nice lunch and the members then hurried home in the rain.

## Travel 4,000 Miles Through United States

Mr. and Mrs. G. O. Feeg returned home last Thursday from an extended trip through Montana, Wyoming, South Dakota, Nebraska, Illinois, Minnesota and Wisconsin. They stopped at various places to visit friends and relatives and at Freeport, Ill., they went through the W.T. Rawleigh factory where they saw being manufactured some of the products which Mr. Feeg has sold for the past 30 years. They were taken to the Rawleigh Ideal Farm on the outskirts of Freeport where they saw some of the world's prize Holstein cattle.

Mr. and Mrs. Feeg returned home by way of Winnipeg and went through the Rawleigh factory there. They report the roads good most of the way until they reached Saskatchewan. None of the highways were as good as the one from Medicine Hat to Calgary, and on the trip they covered nearly 4,000 miles on various highways.

## No Further Payment On Wheat Contract

Prairie wheat farmers can expect no further payment beyond the final payment of \$3.30 on wheat delivered to the 1945-46 pool conducted by the Canadian Wheat Board, in reply to a recent question in the House of Commons Prime Minister St. Laurent made the following statement:

"The government gave long and careful consideration to the representations made by the Pool organizations of the prairie provinces and others respecting the five-year wheat pool; subsequently, the sum of \$65 million was appropriated by parliament as a final settlement for the pool operations, and it is not the intention of the government to make any further recommendation to parliament in that regard."

**GEORGE KERCHER PROMOTED TO RANK OF FLIGHT LIEUT.**

Air Force Headquarters at Ottawa have announced that George E. Kercher of Didsbury has been promoted from the rank of Flying Officer to Flight Lieutenant, and for the present he will be stationed at Centralia, Ont.

Flight Lieutenant Kercher joined the RCAF in June 1942 and served overseas with the 431 Squadron. At present he is Adjutant for the RCAF Flying Training School at Centralia, Ontario.

His parents, Mr. and Mrs. E. Kercher, reside at Didsbury, Alberta.

## Tests Show Town Water Supply Safe

At the Town council meeting on June 26, a report was read from the Rosebud Health Unit on Didsbury's water supply and from samples taken at the reservoir and from the mains it was found that the water contained no harmful ingredients and was quite satisfactory for human consumption.

The two lots north of Edford Mo. were sold to Ed Ford, who will turn them into a parking lot.

Discussion took place on the drilling of a second well as an emergency water supply for the town system, but nothing definite will be decided until the engineers are consulted.

A communication from Mountain View Bible College asked for tax-free concessions if one of the dormitories were rented to the Olds School Division for classroom purposes. Council decided that no taxes would be levied. NOTE—It is understood that negotiations are underway by the School Division to rent one of the Mountain View Bible College dormitories to be used for classroom purposes to relieve the overcrowded conditions of the Didsbury schools. Grade one and the home economics classes would be housed in the dormitory if satisfactory arrangements can be made.

**MONDAY, JULY 2, IS A DOMINION HOLIDAY**  
Monday, July 2, is Dominion Day and a public holiday all over Canada. All business places in town will be closed, and housewives are reminded to stock up the larder for the week-end holiday.

News correspondents, wherever possible, should have their news in by the weekend, or as early as is convenient Tuesday morning.

Advertisers will be contacted on Saturday morning for advertising copy. Please co-operate.

## WESTERDALE

The Westerdale ball team was successful in winning its first league game on Sunday when it played the Hainstock team on the local diamond, the score being 6-1.

The baseball suits which were donated to the ball players by a number of the Didsbury merchants are a great asset to the team and deep appreciation is extended to the merchants for their generosity.

Miss Greta Kershaw was honored as a surprise party at her home on Monday evening. A number of young people attended the party and enjoyed a grand evening of games etc., and a delightful lunch of sandwiches, cake and ice cream.

Mr. and Mrs. Ray Muirhead and son Larry motored to Lousana on Monday to visit Mr. and Mrs. C. Farrant.

Mr. and Mrs. Frank Herbert left early last week on a motor trip to Fort St. John.

Mr. and Mrs. O. Rundle and Mrs. Mary Makow, all of Calgary, attended the dance at the Westerdale hall Friday evening.

Miss Patsy Buckley and Miss Phyllis Jackson are home again after completing a term at the Red Deer Composite High School.

The Westerdale school children enjoyed their picnic at the school last Friday.

## IRO's Oldest Refugee to Settle in USA

Paula Wilsdorf, the oldest ward of the International Refugee Organization (IRO)—one of U.N.'s Specialized Agencies—recently celebrated her 105th birthday in a refugee camp near Salzburg, Austria. Her adopted daughter, Elizabeth, aged 5, reads the inscription on the cake which says happy birthday in English and Polish. On her anniversary Mrs. Wilsdorf received the most treasured gift she had ever hoped for—the news that she would be resettled in the United States of America, as soon as arrangements can be made.

## Big Attendance At Field Day At Grenville McCaig Farm

Seventy-five farmers attended the Field Day at the Grenville McCaig farm at Neapolis on Friday, June 22, sponsored by the Central Alberta Dairy Pool and the Department of Agriculture.

Highlight of the program was the judging contest conducted by Ray Dixon, who is in charge of the cow testing program for the Department of Agriculture. Those participating in this contest included four of Grenville McCaig's Holsteins using the score card method of placing.

The Alberta Dairyman's Association donated ten dollars in prize money for this event which was won by the following: First prize, Mrs. Lawrence Hunter, the former Janette Worrall who was prominent in the Didsbury Dairy Club, building up a herd of ten fine Ayrshire cows; second prize, Mr. Ernie Walker, who is a graduate in Agriculture of the U. of A. and at present operates a Hereford farm; third prize, Mr. Tom Morris, leader of the Didsbury Dairy Club; fourth prize, Ken Shultz, who was at one time cheesemaker at the Neapolis Cheese Factory, and who is now farming.

Mr. Hugh McPhail, District Agriculturist, was chairman of the program and introduced the guest speakers. D. H. McCallum, Dairy Commissioner, urged farmers to take a long view of the dairy situation. He believes the increasing population in Canada will provide markets for our dairy produce. The best hope for the individual dairy farmer at present is to increase production per cow; to eliminate Mastitis and Bang's Disease, and to sell only top quality milk and cream. He urged farmers not to sell their cows. "Your cows are a part of your farm equipment just as surely as your binder or seed drill and do not be tempted by the present high prices of beef to sell off your breeding stock," he concluded.

Mr. Everett Birdsall, M. Sc., who is Supervisor of Crop Improvement for the Department of Agriculture, spoke on the importance of forage crops and legumes in maintaining fertility and fibre in the soil. Mr. Birdsall, who was raised on a farm in the Didsbury district, said "The farmers should not get away from the idea that grain in forage is out of production. There is no better hail insurance than a field of hay and some cattle to feed it to when hail destroys the grain crop."

Dr. Donaghue spoke on Brucellosis or Bang's Disease and urged farmers to vaccinate their heifer calves to eradicate this scourge, pointing out that the Department of Agriculture supplies the vaccine and the only cost to the farmer is for the veterinary to administer it.

A demonstration was given on how to use a milking machine and the sanitation of milking utensils by using the new detergents.

## WESTCOTT

Best of luck to our Grade Nines. There are six of them writing at Westcott this year: Eleven Dageforde, Marjorie Holmquist, Gladys McDonald, Lorraine Korschuh, Fred Bogner and Leslie Goetjen. Mrs. A. Spind has been presiding while the exams are being written.

What weather for June! We've had snow every week of this month and we're wondering where Spring or Summer is this year? As this is being written snow is falling quite heavily and the ground is white.

The Grade Eleven pupils finished their exams in Didsbury and are now out of school for the holidays. Grade Twelve is writing until Thursday. Marjorie Goetjen is one of these Grade Twelve students writing this year.

Mrs. C. Cheviart of Chicago is visiting with her sister Mrs. K. Goetjen in Didsbury and relatives west of town.

## PIONEER OFFICE TO BE CLOSED JULY 4 TO 11

In order to give the staff a holiday the Didsbury Pioneer Office will be closed for a week, July 4 to 11, inclusive. There will be no issue of the paper on July 11, but publication will be resumed with the July 18 issue.

## Westcott W.A. Meets At Mrs. Youngs' Home

Ten members of the Westcott W.A. met at the home of Mrs. George Youngs for the June meeting. Roll call was answered by a wedding custom, and devotional was taken by Mrs. Cliff Eckstrand.

Mrs. Alex Blain gave a study of the last chapters of the book "The Church Re-enters Japan," as her mission.

The next meeting will be held at the home of Mrs. A.C. Wahl in Didsbury on July 17.

"Bless Be The Tie" was sung and the meeting closed with the Lord's Prayer.

A lovely lunch served by the ladies brought the afternoon to a close.

## MELVIN NEWS

Five Institutes, Rugby, Westcott, Zella, Colburn and Mountain View, were entertained by the Melvin Institute at the Melvin Hall on June 21st.

The guest speaker, Miss Judson from Edmonton, assisted by Miss Smith from Red Deer, gave an interesting talk and display on Home Decorating.

Mrs. Richard from the Colburn Institute gave two recitations.

The next meeting of the Melvin Institute will be on July 4th at the home of Mrs. Phillips.

Emile Dupont Sr. entertained a number of friends on Saturday night in honor of the birthdays of Mr. Dupont Sr. and Emile. A lovely evening was spent after which a delicious lunch was served.

Mrs. Allen Krebs accompanied Mr. and Mrs. Win Weidner to Calgary to see the Happy Gang Show on Tuesday.

The Melvin Community extends sympathy to the Krueger family. Mrs. Krueger died in this community at one time.

Mrs. Ross Youngs, who has been a patient in the Didsbury Hospital for the past week, underwent a major operation on Tuesday and we wish her a speedy recovery.

Mr. and Mrs. Dupont Sr. and Mrs. Dupont Jr. and Mr. Randy were visitors at Gleichen on Sunday.

Mr. and Mrs. Les LeGrand and Marlene were dinner guests with Mr. and Mrs. August Krebs on Sunday.

**NETHERLANDS CORPORATION TO RECLAIM CANADIAN MARSH**

Organization for the Canadian Commercial Corporation of the Netherlands, for the purpose of reclaiming 2,500 acres of marshy ground in the vicinity of Vancouver, British Columbia, has been announced in the Hague.

Netherlands hydraulic engineers will drain this land under the supervision of a co-director of the Dutch "Unie van Waterschapbonden" (Union of Catchment Boards), which organization has been responsible for the drainage and reclamation of large tracts of waste land in the Netherlands. It is anticipated that it will take about a year to drain 1,500 acres using Netherlands pumps and other installations.

**CANADIAN ANIMAL CENSUS**

The number of cattle on Canadian farms on December 1, 1950, was placed at 8,292,100 by the Dominion Bureau of Statistics. This is a slight increase over the 8,243,000 estimated to be in Canada a year earlier.

The horse power as a means of power on Canadian farms is fast diminishing and so is the horse population. On December 1, 1950, there were only 1,594,500 horses left on Canadian farms compared with the peak figure of 3,813,000 recorded in 1921. During the past year numbers declined 8.3 per cent.

Poultry numbers in Canada declined 12 per cent during the past year, standing at 37,443,000 on December 1, 1950, as against 42,443,000 on the same date a year earlier.

Yukon Valleys For  
Livestock and Grass

Instead of hearing out the popular notion that it is wholly a land of icy mountains and tundra, the Yukon Territory has shown that its great river valleys will support livestock and field and forage crops.

Since the northland represents the last frontier for the expansion of Canada's agricultural land, the significance of pushing agriculture production into the Yukon is readily seen.

Field crops, on fallow, yielded quite well at Mile 1019. The yields averaged over a period of 1945-50, inclusive, were: wheat 30-35 bushels an acre; oats 50-80 bushels an acre; barley 40-60 bushels an acre. Stable yields were constantly light.

Forage crops presented no special problems. The standard grasses of the west responded and survived satisfactorily. Alfalfa and sweet clover, however, were the only legumes which proved adaptable.

Shorthorn cattle, wintered in open sheds, run in quarters, responded thrifflily. Poultry, kept in conventional housing, was moderately productive and wintered well.

Special conditions exist at mile 1019 which have a large influence on agricultural production. Average temperature (maximum) for the season May to August, inclusive, for 1949-50 inclusive was 63.8 degrees F. The average minimum was 34.6 degrees F. The highest temperature recorded in July 1947, was 88 degrees.

The altitude at mile 1019 is about 2,000 feet, much higher than most valley sites in the Yukon and probably less favorable to agriculture. Another unfavorable factor at mile 1019 is the proximity of the St. Elias glacial field, which often causes temperature to drop, to the low 20's during the evenings. In spite of the fact that these snafus lessen the frost-free period, however, the experimental farm there has produced its own field and garden seeds regularly since 1945.

Other dramatic contrasts within the Yukon are seen in such sights as a herd of cattle grazing within sight of the fabulous Klondike goldfields and in prospector-settler's cabins ringing with vegetable gardens and flower beds.

The quality of Yukon crops speak for themselves. A sample of Yukon barley, recently submitted for professional approval, was termed "the best sample of barley received from the West this season."

All the potential agricultural land of the Yukon lies in the valleys—the Yukon, the Stewart, the Pelley, the Nordanak and others. And not all valley lands are suitable for farming.

The tablelands are mostly mountainous and useless.

## POTATOES FOR PAPER MAKING

You may soon be getting mashed potatoes in your writing paper if further experiments corroborate preliminary findings that a mixture of potatoes and pulp would make a better grade of paper. Further tests are being carried out by paper mills in Maine.

**WEDDINGS**  
**AUSENIUS-JACKSON**  
A pretty wedding was solemnized on June 18 in Calgary when Miss Letta Lou Jackson, R.N., of Mile 10, Alberta, became the bride of Donald Allen Ausenius, only son of Mr. and Mrs. O.H. Ausenius of Didsbury.

The bride was dressed in a pale pink suit, complemented by a corsage of gardenia, and was attended by Miss Jean Squair, R.N., of New Westminster, B.C.

The groom was supported by Mr. Merlin Howlett, of Hythe, Alberta. A reception was held at the home of the groom's grandparents, Mr. and Mrs. O. N. Ausenius, 320 - 12th Ave. N.W., Calgary, where a buffet luncheon was served to 40 guests.

Mr. and Mrs. Ausenius left on their honeymoon for Banff and Jasper, and upon returning will make their home on their farm east of Didsbury.

**ODELL-TARBUCK**  
Before the flower-banked altar of St. Barnabas Anglican Church, Calgary, Miss Dorothy Tarbuck, daughter of Mr. J. Tarbuck of Calgary, became the bride of Mr. Don Odell, son of Mr. and Mrs. Warren Odell of Carstairs, in a recent wedding ceremony.

Rev. J. E. Birchall performed the nuptial rites in which the bride was given in marriage by her father.

The bride wore a powder-blue dressmaker suit with blue accessories and carried a bouquet of red roses. The bridesmaid, Lyla Marks, wore a wine suit and her corsage was of yellow roses.

The bridegroom was attended by Mr. Everett Harder.

The happy couple motored to Jasper for a short honeymoon and are now making their home in Calgary.

BOARD  
NOTES

W.K. Snyder,  
Field Supervisor

## WEED SPRAYING WITH 2,4-D

The spraying season is here again. In order to get the maximum results from the use of 2,4-D there are several important things to keep in mind. Adequate soil moisture is most desirable and with the recent rains we can expect excellent results if spraying is done following these rains. Speed of travel is important and should be known. From 4 to 5 m.p.h. is usually considered most satisfactory.

The swing this year is to power take or pumps, low speed high volume units. This does not require a separate engine and hold down the first cost of the machine.

A good sprayer should have: 1. Tank of large capacity and rust proof. 2. Pump with large capacity for fast filling and which also gives plenty of by-passing of fluid to agitate the mixture. 3. Control valves within reach of operator for regulation of pressure. 4. Adequate filtering system. 5. Non-corrosive booms and nozzles. 6. Safety release on both booms which will permit them to swing back when striking an obstruction.

Check over your weed spraying equipment now and be sure it is ready to go on short notice. With plenty of moisture in the ground weed growth will be very rapid and are easily killed with a lighter application of chemical.

## WATCH FOR GRASSHOPPERS

I was in a field a few days ago where small grasshoppers were doing a lot of damage. They were moving from a headland of grass into an adjoining barley field. They had completely eaten off all vegetation to a width of about 40 feet and were gradually moving further into the field.

Young hoppers will return to the grass headlands at night until they reach almost full size, then they are away to further fields. They are to poison them when they are quite young. Aldrin applied with a weed sprayer on the infested areas will kill them. Usually one application on the margin of the field is all that is required to do the job. For application rate and safe handling advice contact your Field Supervisor.

## WHO CAUSES FOREST FIRES?

Two-thirds of the responsibility for forest fires is placed on settlers, fishermen, road travellers and berry pickers, in that order. This estimate is the result of the first Canadian-wide survey of forest fires causes and causes made by the Forestry Branch of the Department of Resources and Development at Ottawa.

The survey estimated that in the eastern provinces sport fishermen constitute the greatest problem to forest protective agencies, whereas in western Canada settlers are held responsible for the largest number of fires. Settlers' fires originate principally from clearing land and burning hay meadows. This is the season when tragic and costly forest fires again "make news." Constant vigil and care in all our outdoor activities, be it on the highway or in the woods or in a stream, is the small price required to keep fires from making news. The ounce of prevention can be applied so easily. Let's do it ourselves and encourage others to do the same.

## BEEKEEPERS' PICNIC AND FIELD DAY TO BE HELD AT LACOMBE

Of interest to all Alberta Beekeepers will be the Beekeepers' Picnic and Field Day to be held on Monday, July 2nd, at the Dominion Experimental Station at Lacombe.

Following a picnic lunch at noon, the program will start at 2 p.m. with demonstrations on good and poor hives. Specimens of diseased hives will be displayed, and methods of wax melting and sterilizing diseased equipment shown. A prominent bee breeder, Homer E. Park of Palo Cedro, California, will speak about queen raising and shipping packaged bees. How to prepare exhibition honey will be discussed, and extracting equipment will be on display.

The experimental farm grounds are at their best this time of year. All beekeepers who can possibly attend are invited to bring their families and lunches to Lacombe for this interesting and enjoyable day. Coffee, cream, ice cream and lemonade will be provided, and arrangements have been made for ball games and races for the young people.

## BUSINESS BOOMS IN ALBERTA

Oil-rich Northern Alberta has so expanded its population, with consequent demand for consumer goods, that national manufacturers have increased their outlets in the Edmonton territory.

**GAS BETWEEN CALGARY AND RED DEER**

The most obvious omission in Alberta's pattern of natural gas transmission lines has been the territory between Calgary and Red Deer. The Edmonton gas company has a line coming south to Red Deer, but the several large and thriving towns from there south to Calgary have had to do without. There always seemed to be a good reason. Their total consumption would hardly justify the cost of laying 90 miles of line, or however much was required.

Talk of a grid system, integrating all the important gas fields, centres of population and the two gas companies brought hope to these towns. Any export plan, whether based on a grid system of collection or not, might lead to a gas line in that neighborhood.

But the first tangible encouragement came only a few weeks ago, when the sponsors of the Bailey oil and gas discovery east of Didsbury made overtures to some of the towns. However, much more drilling and engineering is necessary before actual negotiations could commence.

And now the Calgary gas company has officially approached the towns between Calgary and Red Deer and is making definite surveys of the potential demand. With the Jumping Pound field tied in, apparently it has plenty of gas to handle this additional market and it proposes to make each town a firm proposition in the near future.

Whether rivalry for that market will develop between the Bailey interests and the Calgary gas company, we don't know. But with two possible sources of supply the towns are now in a healthy position and seem assured of getting gas before too long. That's all they want.—The Calgary Albertan.

**POLITICAL COMMISSARS ?**

Defence Minister Claxton's decision to set up a Bureau of Current Affairs to keep service men informed as to why they are fighting looks a bit like borrowing a leaf from Moscow's book. Political commissars have long been an important and not always popular part of Soviet military technique. What is suitable for a totalitarian army of illiterate conscripts may not be exactly what is needed for an entirely literate army of volunteers in a democracy.

It does little credit to the intelligence of the men of Canada's fighting forces to set up a Bureau of Current Affairs to tell them through official channels why they are fighting. Most of them already know. That is why they are in the armed services.

If the problem is rather one of keeping the men of Canada's fighting forces informed about what is happening at home, there is a simple and inexpensive way of doing so without setting up a Bureau of Information. Ottawa has too many such Bureaux now. All that needs to be done is to provide the service men with home town newspapers and periodicals that will keep them abreast of current affairs far better than any department bulletins and booklets, and without the fear that invariably lurks in people's minds that official publications tend to be slanted.

Defence Minister Claxton's idea about keeping Canada's fighting forces informed on the issues of the day is sound. The method he has chosen to give effect to the scheme, however, is questionable indeed.

The only true national unity is that which, like Canadian Unity, arises from the needs and desires of the people. Unity foisted on a people from above such as that in the U.S.S.R., is not unity but tyranny.

**NEW IMPORTANCE FOR LIVESTOCK**

Reclamation of millions of acres of marginal prairie into grassland and a strong demand for animal products today are giving new importance to livestock for the prairie farmer.

Where drought and erosion once threatened marginal and submarginal areas with desolation, grass, made possible through irrigation and reclamation work, now provides feed for thousands of head of stock.

And both domestic and export markets for livestock products are among the brightest of all the farmer's markets today.

To help illustrate how and why the prairie farmer's production plan may be supplemented with livestock, the Canadian Department of Agriculture this year will show an exhibit on livestock production at Western B fairs.

Indicative of the amount of livestock feed that is becoming available through grassland reclamation is the fact that community pastures alone, operated under the Prairie Farm Rehabilitation Act, comprised more than 865,000 acres in 1950. These provided pasture for 36,000 head of cattle and nearly 3,000 head of horses.

Equally important to the farmer, however, are the small irrigation projects which bring the possibility of reclamation to the individual farm.

Although small in size, they provide, in the aggregate, irrigation to a larger acreage of land than do the larger community pastures. They provide irrigation for nearly 68,000 acres.

Their chief advantage lies in the fact that they are not restricted to the well-defined watersheds of the prairies, but may be constructed wherever a project is required. Areas where these projects have been developed, once prone to the adverse effects of low precipitation and high evaporation, now provide an assured feed supply for livestock.

Farmers adjacent to community pastures enjoy the added advantage of additional summer grazing.

Livestock provides the natural use for grass and as the amount of available grass expands, the importance of livestock increases.

# Divide Your Dollars With Your Neighbor

Everybody has a certain amount of civic pride—that sort of pride which helps make a village a town, and a town a metropolitan city.

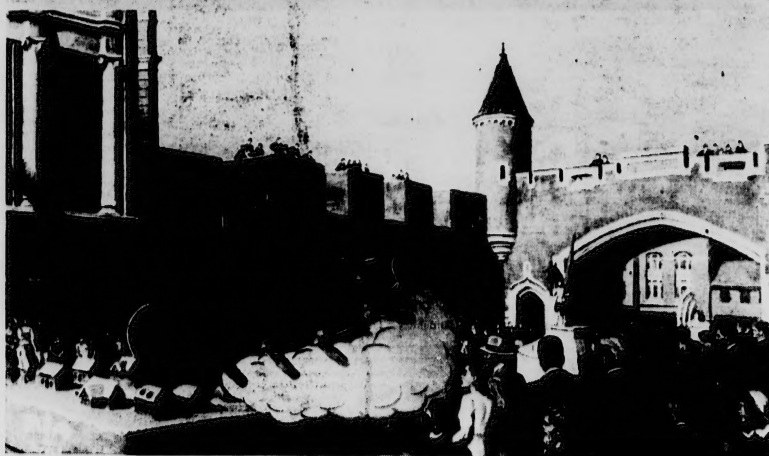

The growth of any community is dependent upon the support given its citizens. If you fail in your co-operation, your town either stands still or goes back.

If you uphold your town by sustaining it wholeheartedly you help yourself and the community. Buy at home! Be neighborly with your dollar. Divide your dollars among your merchants and others who have the interests of Didsbury at heart. Help them and they will help you to greater values — for increased volume means decreased costs.

DIDSBURY needs your support and you need the support of the town. Let's get together and share our dollars for a mutual prosperity.

## EXCLUSIVELY CANADIAN...

The colourful pageantry of the annual St. Jean Baptiste Festival is French Canada's tribute to its patron saint. Parades and floats in cities, towns and villages recreate the legends and history of the old Province of Quebec.

Created and signed by The House of Seagram, this advertisement, with appropriate copy for foreign lands, is appearing in magazines and newspapers printed in various languages and circulated throughout the world.

## Seagram TELLS THE WORLD ABOUT Canada

This advertisement was designed by The House of Seagram to tell the people of other lands about Canada and things exclusively Canadian.

Many people in Latin America, Asia, Europe and other parts of the world are not fully aware of the richness of Canada's natural resources, wild life, scenic beauty and cultural traditions. The more the

peoples of other lands know about our country, the greater will be their interest in Canada and Canadian products.

The House of Seagram feels that the horizon of industry does not terminate at the boundary of its plants; it has a broader horizon, a farther view—a view dedicated to the development of Canada's stature in every land of the globe.

The House of Seagram

Systematic Saving To  
Curtail Inflation

In carrying out restrictions on bank lending, the chartered banks seek to preserve the buying power of the dollar in pay envelopes and shopping purses, as one factor in a concerted national anti-inflationary policy. It was stated at Montebello, Quebec on June 22, by J. U. Boyer, retiring President of the Canadian Bankers' Association.

Speaking at the annual meeting of the Association, Mr. Boyer reviewed the bank credit restrictions, first announced by the Bank of Canada February 22, and urged all Canadians to help take the pressure off prices by systematic saving.

"Putting and leaving money in savings accounts is anti-inflationary in the absolute," he said. "It is indeed patriotic in the current situation. I appeal sincerely for a new and stronger program of saving by all Canadians."

He added a warning note that to preserve the buying power of the dollar in the hands of the Canadian consumer, "all of us will have to be prepared to do and to accept some things that may be difficult, unpleasant and disagreeable. The national interest demands that we face up to them."

Canada's problem, said Mr. Boyer, "is to fit a large defence program into an economy already close to full employment; and to do it, if possible, without serious inflation. To gain success in this is to ensure for the foreseeable future a high degree of development, employment and prosperity to this country."

"The man on the street, who may not always know how inflation comes, unfurling knows when. He identifies it by its main impact on him, namely: Rising prices of the things he needs; a growing difficulty in making ends meet. The dollar in the pay envelope and in the housewife's shopping purse buys less and less. This condition hits first and worst those who can least afford it—pensioners, people on small fixed incomes, bread-winners, housewives. The monthly mounting Cost of Living Index becomes a yardstick of popular protest and national impatience."

The government choose to resist inflation by fiscal and monetary measures but, as a banker, Mr. Boyer spoke particularly of the restrictions on the expansion of bank lending.

"Early in February," Mr. Boyer continued, "in discussions between the Bank of Canada and the chartered banks, the Bank of Canada suggested, in view of rising demands for credit which had produced a rather rapid increase in bank loans in the last quarter of 1950 and early 1951, the further expansion of the volume of bank credit was undesirable and that steps be taken to arrest it. Announcement in detail, was made by the Bank of Canada in a press release on February 22."

"The banks concurred, for there is only one place for the commercial banks in a situation which is fundamentally inflationary. That place is at the forefront of all or any forces which aim to protect and preserve as far as possible, the buying power of the dollar in the breadwinner's pay envelope, in the housewife's purse, and in the depositor's bank account. Canada, being particularly subject to price pressures from beyond her own borders, it is clear that domestic policies may not wholly arrest the rise in prices, or in the cost of living index—but without such measures the rise could conceivably be higher and faster."

"Term loans, that is to say loans to corporations for one year or more on debentures, for capital purposes, are halted; margins on brokers' loans have been increased; expansion of loans to finance companies is stopped—and all other loans are scrutinized and held down wherever possible. Loans for speculative purposes are no longer made. Expansion of credit for abnormal inventories and against unprotracted receivables, is discouraged wherever possible or reasonable. And at the same time we must assist in financing defence production and do our best to meet ordinary requirements of business."

"Despatches from Ottawa have described representations made by some merchants, manufacturers and others who are affected by restricted credit. We can understand and we can earnestly sympathize because to some extent we are all in the same boat. The businessman cannot make profits out of loans he does not make. Loans produce a bank's best returns, and a bank must put up with lower profits when it restricts its lending. For all of us the pains will be worth the bearing if the policy yields measurable headway in conserving the buying power of the consumer's dollar."

JAPAN PROVIDES FOR  
IMPORTS FROM CANADA

Japan has provided for the importation from the dollar area, which includes Canada, of Douglas fir, spruce and hemlock up to an import limit of \$100,000; machinery up to \$500,000; books and periodicals up to \$20,000; and miscellaneous goods to \$5,000.

STUDY PLANS TO HALT  
LEVEL CROSSING TOLL

The dreadful toll of level crossing accidents still is alarming, not only in Alberta but in other sections of the Dominion. Hardly a week passes but there are reports of this type of accident.

Undoubtedly there is need of a speed-up in the program eliminating these crossings. In the opinion of officials of the Alberta Motor Association. While federal, provincial and municipal authorities are making large outlays annually in improving their crossing conditions, there still are many thousands of these level crossings in the Dominion.

Each one constitutes a menace to traffic, if there is a disregard of safety measures.

While there have been many suggestions of educational campaigns to warn drivers to be more than ever on the alert at level crossings, it is claimed that other measures also are needed.

The need of buses coming to a full stop at these crossings as required by legislation, is an indication of the legislative trend to improve safety factors.

After all in the opinion of the A.M.A. officials, a close regard to the safety precautions would mean a lot in reducing crossing accidents.

GERMANS DISCOVER  
NEW WEEDKILLER

German chemical engineers claim to have produced a weedkiller which has the power to bring about an abnormal growth. A strong solution of this product, which contains hormones, will stimulate the growth of the weed plant in such a way that virtually all its strength is spent. The product thus produces astonishing deformities, and malformations which results in death to the plant. Cereal and grain crops are not adversely affected and it is said that they may even benefit by the application of the chemical.

Kill  
Weeds  
With

## HERBATE 2,4-D

Prairie farmers report increased yields of 4 to 6 bushels per acre by killing out weeds with HERBATE 2,4-D. Yet as little as 10¢ worth of HERBATE 2,4-D is enough to treat an acre ... an average cost of only 7¢ to 10¢ per extra bushel.

## HERBATE 2,4-D

makes weed control easy and economical  
Because of HERBATE's high 2,4-D Acid content, as little as 2 1/2 lbs. of a quart per acre assures effective, low-cost weed control. HERBATE 2,4-D kills sensitive weeds outright, keeps even tough ones under control. HERBATE 2,4-D helps to conserve moisture, increases yields, reduces dockage.

## HERBATE 2,4-D

A product of Canada's largest manufacturer of chemicals

HERBATE 2,4-D is a product of the Agricultural Chemicals Division of CANADIAN EXISTRIES LIMITED, Canada's largest manufacturer of chemicals and long-established leader in modern pest control products.

• Attention  
GARAGES &  
SERVICE STATIONS

In accordance with the Vehicles and Highway Traffic Act, passenger cars and motorcycles will be tested and approved before being permitted the use of the highways. Therefore:

YOU ARE INVITED TO APPLY FOR AN APPOINTMENT AS AN AUTHORIZED TESTING STATION

It is not necessary that special equipment be employed, but it is most important that responsible persons in each testing station be satisfied beyond any reasonable doubt to the safe condition of the mechanism and equipment tested, before affixing the sticker and issuing the certificate of approval to the owner. The maximum fee chargeable by a testing station has been set at \$1.00. The fee is payable by the owner of the motor vehicle and does not include any charges for repairs and adjustments required. The following is a synopsis of the mechanism and equipment to be checked.

## BRAKES—

- Check stopping distance.
- Examine lines and cylinders for leaks (visual).
- Examine rods and clevis pins for wear.

## LIGHTS—

- Check headlamps for proper aiming and distribution of light.
- Tail and stoplamps must work and show a red light to the rear.
- All lighting equipment on car must work.

## MIRROR—

- Check mirror for proper mounting and clear vision.

## WINDSHIELD WIPERS—

- Windshield wipers must work properly and clean windshield for clear vision.

## HORN—

- Horn must be audible for at least 200 feet.

## STEERING AND WHEELS—

- Check steering assembly for wear and excessive play.

• Send your Application to:  
PROVINCIAL SECRETARY

GOVERNMENT OF THE PROVINCE OF ALBERTA  
ADMINISTRATION BUILDING — EDMONTON

**GAME NOT ALWAYS PLentiful IN CANADA**

"We must develop techniques for appreciating the ability of various areas to produce game as a basis of setting procedures for taking the harvest where it exists, and we must have the courage to take all the harvest." This was the challenging statement presented to the delegates to the Fifth Canadian Wildlife Conference at Ottawa last week by Dr. Ian McTaggart Cawen, Professor of Zoology, University of British Columbia.

Dr. Cawen said that the popular impression that all the areas of Canada abound with wildlife in the early days is not borne out by close study of the note books and other documents of our early explorers. Shortages of various species were noted, particularly in the mountain forest and boreal forest regions, even in the days of Alexander MacKenzie's westward travels. In the same regions recent wildlife populations are greater today than any previously known. The sun-drenched prairie grasslands and tundra were formerly Canada's greatest game stands. The fence and the plow has changed the picture and now we are faced with producing game for many times the number of people on smaller and less productive areas.

The conference was officially opened by the Hon. Robert H. Winters, Minister of Resources and Development.

Representatives of all ten provinces

are meeting with members of the Canadian Wildlife Service, and representatives of other federal departments for a two-day discussion of important questions of life management and conservation.

**Compulsory Testing Of Motor Vehicles**

Enforcement of Alberta's compulsory motor vehicles testing program will be delayed pending the setting up of an organization to test the operating efficiency of all vehicles.

All cars were to be tested by the first of July according to legislation passed at the last session of the legislature but E.R. Hughes, Deputy Provincial Secretary, said last week that enforcement would be postponed until inspection agreements have been set up and operating efficiently. No deadline will be set until the government is certain that all car and motorcycle owners have had time to take advantage of the testing facilities.

Mr. Hughes said that volunteer vehicle inspections encouraged by the Safety Councils will not suffice. Only cars which bear the official sticker of approval from the government's testing program will be recognized.

The Deputy Provincial Secretary said all garage and service station operators in the Province are asked to co-operate in the testing program since the government believes the program would be more successful if conducted by the automobile trade than if carried out in government testing stations.

Any qualified garage or service station is eligible for appointment as an approved testing centre and will be supplied with complete instructions, windshield stickers and forms. All garages and service stations applying for appointment as testing stations must sign and carry out an undertaking to do the inspections thoroughly and ethically.

Testing centres will not be allowed to charge more than \$1 for testing and vehicle and this fee will include the cost of the stickers which will certify the vehicle has been inspected and approved. Trucks and other commercial vehicles will not have to be inspected by testing centres but will continue to be inspected by the Highway Traffic Board.

Testing procedure which garages and service stations will follow includes checking on brakes, steering and wheels, windshield wipers, horn and lights.

Mr. Hughes said that rejection slips as well as approval certificates will play an important part in the testing program. If a vehicle leaves a testing centre unapproved, a rejection slip will be filed out and copies given to the owner and to the Motor Vehicle Branch of the provincial government.

"The testing program should re-

**Drouth To Come Again**

Scientists recently uncovered living records of the wet and dry cycles in the Great Plains region. They go back more than 500 years. They are trees, ancient cedars and oaks, on the Dakota plains. Narrow ring bands mark the dry seasons and wide ring bands the wet. From them a weather calendar has been constructed covering 536 years.

They show there has been no appreciable weather change on the Great Plains. For centuries, the dry years tended to bunch together into drouth periods. They were of irregular length. Wet years tended to group together into irregular periods of good rainfall. Wet and dry years rarely alternated. During this 536 year interval, there were 22 drouth periods and 24 wet. The longest lasted 39 years.—GTA Digest.

duce our Province's highway accident toll," Mr. Hughes said. "Last year 146 Albertans were killed and 2,708 injured in 8,211 accidents. Mechanical failure undoubtedly was a contributing factor to many of these accidents."

He added that, in cities, states and provinces where compulsory periodic vehicle inspections were in effect, approximately 50 percent of the vehicles tested show defects.

**DON'T WASTE HAY**

Make the most of your hay crop, advises J.E. Birdsall, Supervisor of Crop Improvement, Alberta Dept. of Agriculture. Prospects are that the crop of hay in Alberta this year will be the best we have had for a long time. There may be those who feel that with so much hay around there is little use harvesting it.

Others may handle the hay carelessly after harvesting because they feel they do not need all of it this year. To the thinking person, however, good management will indicate that this year provides a rare opportunity to build feed reserves.

Although hay in the stack will deteriorate with time, measures can be taken to reduce spoilage. With present day equipment, stacks can be built large and high so that there is a minimum of top for the number of tons of hay in the stack. It is also good practice to top off the stack with slough hay, old hay, or

**KERNELS IN A BUSHEL**

Calculations made by the North Dakota state seed department on hard red spring wheat indicate the number of kernels in a measured bushel as follows: 1,000,000 in 60 pound wheat, 1,300,000 in 55 pound wheat, 1,500,000 in 50 pound wheat, 1,700,000 in 45 pound wheat, and 1,800,000 in 40 pound wheat.

Other material that will protect the good hay against spoilage.

Mr. Birdsall suggests that although we have not made much use of hay barns in this province, we have areas in which quickly erected shelters would certainly pay their way. In the foothills, where high rainfall encourages hay spoilage, there are lots of slabs and such material that can be used for building hay barns. Beyond the up- rights to support the structure, all that is needed is a roof, and a hay fork for carrying the hay into the barn.

## -: DISTRICT NEWS :-

### BURNSIDE NOTES

Deepest sympathy is extended to the Shells family on their recent bereavement.

While taking her two children to school in the truck last Thursday, Mrs. Sandy Brander had the misfortune to strike a soft shoulder in the road and the truck went into the ditch. Fortunately it did not turn over and no one was hurt.

Fred Metz was a business visitor in Calgary Saturday.

The Dance at the Lone Pine hall on Friday was well attended and everyone had a good time.

Roy Dowell visited last Wednesday with his mother Mrs. E. Dowell. Harry Seibel is helping Fred Metz with his summer following.

The picnic held at the Burnside school on Monday evening was a huge success. A ball game was played between two pick-up teams and a bon-fire and Weiner roast, together with cake, coffee, etc., brought the evening's program to a close around 11:00 p.m.

A light snow fell Tuesday morning, June 26. What a country!

Mrs. Harry Walker and Mr. and Mrs. Herb Walker motored out from Fort Arthur, Ont., and are guests of Mr. and Mrs. Chas. Mardon this week.

Mrs. Page and Mary visited Sunday with Mrs. Mardon.

### South West Didsbury

Mr. and Mrs. Eldon Thede were Tuesday evening visitors at the home of Mr. and Mrs. L. Hunsperger.

Mr. F. Kuhn was a Wednesday dinner guest of Mr. and Mrs. W. A. Sherrick.

Mr. Otto Bartz of Edmonton was a weekend visitor in the district.

Mrs. W. A. Sherrick had a very successful Tupperware tea on Friday evening and it was enjoyed immensely by the ladies.

Miss Marylian Befus of Edmonton has completed her 11th grade and has accepted a position with Jenkins' Groceria, starting to work Monday.

Mr. and Mrs. Regner and family of Carstairs were Sunday dinner guests of Mr. and Mrs. F. Befus.

Mr. and Mrs. J. W. Rennie, Mr. Dave McEwen, Miss Shirley Rennie and Mr. M. McEwen were Banff visitors Sunday. Miss Shirley Rennie remained, having accepted a position at Mt. Norquay Lodge.

Mr. and Mrs. Carl Meyer and family were Tuesday evening visitors with Mr. and Mrs. Dan Rinehardt and family.

Sunday dinner guests of Mr. and Mrs. Carl Meyer were Mr. and Mrs. Ross (Mortz) and Mr. E.A. Bartz.

Mr. and Mrs. L. Dickau, Miss Marion Dickau, Mr. Ken Dickau, Miss Irene Erb, Mr. and Mrs. Tom Edwards and family, Mr. Joe Fulkerth, Mr. and Mrs. Jack Edwards and family, and Mr. Art Edwards and family of Calgary were Banff visitors Sunday.

Mr. and Mrs. Herman Grem of Kitchener, Ontario, were weekend visitors with Mr. and Mrs. Norman Weber.

Mr. and Mrs. N. Weber and Mr. and Mrs. H. Grem were Sunday dinner guests of Mr. and Mrs. Nelson Reist of Carstairs.

Mrs. J. J. Obrien and girls of Edmonton are visiting relatives in the district.

Mr. and Mrs. H. Grem were Monday dinner guests of Mr. and Mrs. Ed Weber.

Mr. and Mrs. Delbert Levagood and family left Tuesday to spend the remainder of the week at Banff.

Mr. and Mrs. L. Hunsperger were Calgary visitors Tuesday.

Mr. and Mrs. W. A. Sherrick and family left Tuesday for Banff where they will spend the remainder of the week.

Mr. Alex McNair spent the past weekend with his parents, Mr. and Mrs. Tom McNair.

Mr. and Mrs. E. Dippel and family were Sunday dinner guests of Mr. and Mrs. B. Brower of Hartman.

### CUT HAY AT THE RIGHT TIME

Most Alberta farmers cut their hay too late, says J.E. Birdsall, Supervisor of Crop Improvement, Alberta Department of Agriculture. Two things to keep in mind when harvesting hay are feed value and tonnage. The earlier the hay is cut the higher will be the feed value and the less the tonnage. The later the hay is cut, the lower will be the feed value and, to a point, the greater the tonnage. Remember that a little less roughage of good quality is worth far more than a great amount of coarse, poor hay.

Since most of our hay mixtures contain alfalfa, the stage of development of the alfalfa provides a guide for the best time to cut. Hay should start when the alfalfa is about one-tenth in bloom. Grasses, if grown alone, should be cut in the early heading stage. Red Clover and alsike may be cut for hay in the full bloom stage.

From 1939 to 1948 gross value of Canada's manufactured goods rose from \$3.5 billion to more than \$11.8 billion.

### EAST NOTES

Don't forget the picnic to be held at the Lone Pine hall on July 4th. Come out and have an afternoon of fun and enjoy your old friends. There will be bingo games, hot dog stand, and pie and coffee will be served. Also races, ball games, horse shoe throwing and jumping. Please don't forget to come out next Monday afternoon to clean up the hall and fix stands. Bring hammers, saws, nails, rakes, or anything you think may be needed.

Ladies of the Lone Pine W.I. are reminded of their items for the bingo game.

The ball game played at Lone Pine on Sunday between Sunny Slope and Lone Pine was won by the latter team.

Wednesday at Banff between the Bancroft and Lone Pine teams.

On Friday there will be a ball game at Sunnyslope with Lone Pine being the visitors.

On Sunday Lone Pine will play ball at Sunnyslope.

The Sunnyslope Orchestra is playing at the Lone Pine hall for the dance on Wednesday, July 4th.

Mr. and Mrs. Underhay were Wednesday evening callers on Mr. and Mrs. Brander.

Mr. and Mrs. Schumaker and girls were Sunday supper guests with Mr. and Mrs. John Schneider, miller and family west of Didsbury.

Mrs. Lucy Thompson of Calgary spent a few days with her son, Alfie and family last week.

### MOUNTAIN VIEW

Congratulations to Mr. and Mrs. Donald Aussenius, whose marriage took place recently in Calgary.

Week-end visitors with Mr. and Mrs. Ernie Cullen and Bob were Mr. and Mrs. Don McKenzie and Joan of Carleton Place, Ont.

Mr. and Mrs. James Worrall, Mr. and Mrs. Lawrence Hunter and Mr. and Mrs. Chris Randers and daughter visited at the Cullen home.

Sunday dinner guests at the Elliott home were Mr. and Mrs. Joe Hunter and boys, Mr. and Mrs. Gordon Rathburn and children and Mr. and Mrs. George Clark.

Mr. and Mrs. Eric Atkinson and Mrs. Arthur Gebbers were Calgary visitors on Friday.

Mr. and Mrs. George Smith returned with them to spend the weekend with her daughter.

Correction: The item last week should have read Mrs. Hugh Devolin is home and the new baby will be home shortly, instead of Mrs. Jim Devolin.

Everyone will be glad to hear that Kenneth Tighe is now home from the hospital.

Mr. and Mrs. Lewis Spragg and family and Mr. and Mrs. Gooder visited Sunday with Mr. and Mrs. Otto Bittner and family.

Miss Lila McCulloch spent the weekend with Owen Bittner.

### M.V.B.C. NEWS

Miss Gladys Eby was in Crenona during the weekend holding a two-day Prophetic Bible Conference in the United Missionary Church at that place. She will be taking one week of vacation at this time.

On Thursday evening the combined Women's Missionary Societies of the United Missionary Church met in the College during the evening. Some thirty-five ladies attended, and considerable work was accomplished. At this meeting Mrs. Lydia Suter, Conference Missionary Superintendent, gave her report of the Inter Conference Council held in Indiana during the latter part of May. Mrs. Suter is a member of the Council and brought much inspirational news from the Conference.

The ladies served lunch at the close of the meeting.

A score or more of workmen have been busily engaged around the school premises. The south entry of the school is being finished with wall board; the unfinished section of the third army building is undergoing quite a change so that it can be used for class work.

The ladies have done their part in helping with canning of rhubarb and the making of apple sauce. Altogether this school is in a busy season. We appreciate the help of these friends.

All the Grade Ten high school students who were with the winter months have returned to their homes. Before this week closes the Grade Nine and Grade Twelve students will also be gone. We know these young people will have a fine vacation as they return to their homes. We'll see some of them again in the fall when school opens. Hope all of them passed their exams.

CANADIANS NOMINATED TO ROYAL SOCIETY

Mr. C.S. Beals, Dominion Astronomer, Ottawa, and Mr. G. Hebert, Director, Physics Division, National Research Council, Ottawa, were among the 25 new Fellows elected at a meeting of the Royal Society in London, last week.

## NICHOLS' NEWS

**TRACTORS** — Last week we sold a new Diesel Tractor and took in a 1948 John Deere "D" in very nice shape. Come in and look it over—it may be just what you need. We also have seven other tractors to choose from.

**WEEDERS**—This is the season weeds do their best. Beat them with good implements. We have a wide variety of cultivators of all makes. One 12-ft. tool left, and three rod weeders priced from \$50 to \$150. Tool bar owners, come and get a set of 30-inch sweeps to try on the thistles and heavy stubble.

**HAYING TIME**—The John Deere Side Delivery Rake makes better hay. Let us show you why. Three Used Power Mowers on hand. One Massey Harris used one year, \$200.00. One John Deere Mower, completely rebuilt, at a bargain.

**AUSTINS**—There are more Austin Cars sold in Canada than all other English cars. There's a reason!

### LITTLE ITEMS OF LOCAL INTEREST

Art Reiber returned last week from the University hospital at Edmonton where he has been recuperating following his recent illness.

Mr. and Mrs. John Kercher of Calgary are on holiday and spent a few days last week with Mr. and Mrs. Ed Kercher in Didsbury.

Mr. and Mrs. Reg. Brooker spent the weekend in Calgary with their son, and attended the Littleton Wardrop wedding on Saturday.

Mrs. B. A. Breckwald, who has spent the past several months in California, expects to be back in Didsbury this week.

Col. and Mrs. Snyder of Sundre were Didsbury visitors on Monday.

Mr. Alex Ross of the Harnett district celebrated his 75th birthday on Thursday, June 21, and a number of relatives and friends gathered at his home to honor the occasion.

Mrs. Claude Thomson of Winnipeg, sister of Mr. Sidney Fox, was the Sunday guest of Mr. and Mrs. S. Fox. Miss Phyllis Fox of Red Deer also spent Sunday with her parents.

In a recent issue of The Pioneer it was stated that the Melody Five Orchestra would play for the Olds Stampede barn dance. This is not correct, and the Melody Five Orchestra wishes to make it known that they have not been engaged to play for this dance.

Mrs. Wm. Henderson and Mr. J. Henderson of Penhold visited with Mr. and Mrs. Reg. Brooker on Monday.

—There will be a dance in the Rugby Hall on Wednesday, July 4. Krebs Orchestra will furnish the music. 25-4c

Rev. and Mrs. E. G. Archer and Mr. and Mrs. W. D. Archer spent last Friday and Saturday at Black Lake, and while it rained, they report fishing good. The road from Winnie to Black Lake is not gravelled and the Archers had to back 15 miles of muddy roads on their return trip.

Mrs. E. C. Helwick and son Bobby left Sunday to return to their home in Los Angeles. They have been guests for the past few months with Mrs. Helwick's parents, Mr. and Mrs. W. B. Dobbin.

—Acme invites you to the Third Annual Chestfield Dance on July 2nd. \$325 in prizes to lucky ticket holders. Dance on the finest floor in central Alberta, to Cliff Howy Orchestra. Drunkard; suggest orchestra in the west. Admission \$1.00 including lunch. Come and visit with friends you have not seen in years. They will be there. We assure you a good time. — Acme Memorial Hall. 25-2p

Rainy weather the past few weeks hasn't been very good for fishing, or at least getting to where the big fish are, but last week Mrs. Lynn Jacobsen weighed in a 3 1/2 pound Loch Leven, caught in the Dog Pound. Whoever said there were no fish in the Dog Pound? That's the only place the fishermen have been able to make a showing so far this year in this district.

Mr. and Mrs. W. A. Doherty and Kenny of Calgary visited in town over the week-end with Mr. and Mrs. Bert Prevost.

Mr. Aaron Klassen, superintendent of Builders' Hardware Stores, Calgary, was a business visitor in Didsbury last Friday, looking over the store which is now being completely remodelled.

Mrs. F. W. Leeson and her daughter Mrs. J. L. Field left last Wednesday for Vancouver where Mrs. Leeson will visit with relatives. Mrs. Field will meet her husband at Vancouver and they will leave for their home in Venezuela.

Mr. George Parsons came down from Dawson Creek last week and Mrs. Parsons, Sandy and Georgina returned with him to take up residence in the northern city. Harvey Shantz moved their household effects to Dawson Creek by truck.

Arthur Rupp of Calgary spent the week-end at his parental home.

Don Blore visited relatives in Olds Monday evening.

Local and district schools close Friday for the annual summer vacation.

Born at the Didsbury hospital to Mr. and Mrs. V. Umbach on Wednesday, June 20, a son.

The Didsbury - Carstairs Dairy Club annual Achievement Day will be held in the Didsbury Memorial Arena on Friday, June 6, at 1:30 p.m.

Gerladine, Bernice and Maxine Fulkert, pupils of Mrs. Ballas, took part in the piano recital which was held at the Olds arena last Friday evening.

—The Afternoon Group of W.A. of Knox United Church will hold a tea and sale of home cooking in the basement of the United Church on Saturday, June 30, at 3:00 p.m. Donations of articles for Home Cooking Tables from members of the congregation will be gratefully received. 1c

Mr. and Mrs. Frank Kaufman have returned from a motor trip to the Pacific Coast.

The Western Sports & Horse Show which was to have been held at the Walter Fulkert farm on June 24th, was cancelled due to the wet weather. Plans are being made to hold this show at a later date.

—Dr. R. E. McKenzie will be away on holiday from June 30 to July 22 and during his absence Dr. Burgess will attend patients. 2c

#### THE WEATHER—UNSETTLED

More rain has been falling this past week and while skies seemed to be clearing Monday, showers were again prevalent late Monday afternoon. Tuesday morning a flurry of snow was in the air with north winds and the temperature around the 35 degree above mark. However, the snow did not last and skies began clearing on Tuesday afternoon. Crops are backward due to so much wet weather, although some of the early sown wheat is said to be 20 inches in height. The crop is good and haying should be starting as soon as the weather is warm and dry.

#### ALBERTA CROP REPORT

The overall condition of Alberta's crops is much better than average for this time of year, according to the June 10th Alberta Wheat Pool crop report. The numerical condition of the wheat crop stands at 88 compared to 81 on the same date last year. The crops are late, however, and warm weather is needed throughout all regions.

Moisture conditions, both surface and subsoil, are exceptionally good throughout the greater part of the province, although crops are beginning to suffer from lack of moisture in the Peace River region. Rains would also be welcome around Edmonton and the area running north and west from there.

Grasshoppers are beginning to cause some damage in parts of the south.

#### R.A.F. AIRCREW TO TRAIN IN CANADA

Since the scheme of training R.A.F. pilots and navigators in Canada was inaugurated in January last, 80 pilots and 48 navigators, all Canadian, have left England to receive training at R.C.A.F. Schools—pilots at Gimli, near Winnipeg, and navigators at Summerside, Prince Edward Island.

LEST—Child's expansion bracelet! Wrist Watch. May have been lost at school. Phone 140. 25-3c

#### CARD OF THANKS

We wish to take this opportunity to thank Dr. McKenzie and the hospital staff for the care and kindness given to Grandma Krueger during her illness. Also to those who sent cards and flowers during our sad bereavement.
